What do Doctors have to say about Colloidal Silver?

"I know of no microbe that is actually not killed in laboratory experiments in six minutes."

Dr. Henry Crooks

"We've described 87 important new medical uses for silver. We're just beginning to see to what extent silver can relieve suffering and save lives."

Dr. Richard L. Davies

Nanoparticle

One Nanometer is the Particle Size of our Colloidal Silver Spheres (see the photographic analysis on the right).

What does Bio Compatible Charged mean?

They are energized active Silver Spheres suspended in water.

24/7 Live Customer Service

We are available all hours to support our customers and our promise is that a Live Person will answer – not a machine.

What is SSIS?

SSIS = Silver spheres in suspension helps the customer to identify that our silver is a true colloid. The more silver spheres or the higher concentration of silver, the darker the color of the liquid.

Testimonials

"Miraculous" Your Colloidal Silver is what I call a miracle. I have 3 kids and I have been on every medication out there to help me stay well enough to care for them. Now I am using ABI Colloidal Silver I feel 100 times better than I did. Now my whole family uses your product."

Janice Grains
Minneapolis, MN

Available in the following sizes:

| Product: Silver Spheres in Suspension | UPC Code | Bottle Size |
|---------------------------------------|-----------------|------------------|
| Colloidal Silver 45 PPM | 6 15539-00104 8 | 1 oz. / 29.57 ml |
| Colloidal Silver 45 PPM Spray | 6 15539-00105 5 | 1 oz. / 29.57 ml |
| Colloidal Silver 10 PPM | 6 15539-00201 4 | 4 oz. / 118.29ml |
| Colloidal Silver 40 PPM | 6 15539-00202 1 | 4 oz. / 118.29ml |
| Colloidal Silver 200 PPM Spray | 6 15539-00200 7 | 4 oz. / 118.29ml |
| Colloidal Silver 500 PPM | 6 15539-00205 2 | 2 oz. / 59.15 ml |
| Colloidal Silver 500 PPM | 6 15539-00203 8 | 4 oz. / 118.29ml |
| Colloidal Silver 1100 PPM | 6 15539-00206 9 | 2 oz. / 59.15 ml |
| Colloidal Silver 1100 PPM | 6 15539-00204 5 | 4 oz. / 118.29ml |

The Science

Do Not Be Fooled by Clear or Ionic Silver claiming to be Colloidal! They are Silver Salts!

Silver salts are clearly more toxic than silver proteins or colloidal silver. It is possible to produce a variety of silver salts and other silver compounds in some manufacturing processes. These may be left over from the materials used in the manufacturing process or may be produced by the manufacturing process as a by product, especially if impure materials are used.

Dr. Hill

Colloidal Silver: A Literature Review: Medical Uses, Toxicology & Manufacture - Second Edition - By John Hill

Silver Salts Are Not Colloidal Silver

Silver Salts have been mistakenly called colloidal silver products by some misguided individuals. By definition, the word colloidal means a system in which particles larger than molecules in size of one substance are suspended throughout the second substance. In the case of ABI Colloidal Silver products, finite particles of metallic silver are suspended within distilled water. Silver salts readily dissolve in water, and therefore are not colloidal in nature.

Particle Size of Colloidal Silver Spheres

This photographic analysis was taken at the University of California, San Diego, Scripps Institute of Oceanography by Charles Graham (Electron Microscopy Analyst) with the Scanning Electron Microscope Model S-360 Cambridge at 300,000x power magnification.

Particle Size .001 micron = 1 Nanometer

Efficacy Proof: We will Supply you with our Efficacy studies on 10PPM to 1100PPM Silver and how they eliminate the most common viruses and bacteria today.

In addition we will give you a suggested Dosage sheet on some of the most common ailments that Colloidal Silver is used for.

ABI Colloidal Silver is non toxic and there are no known reactions. Safe and does not interfere with medications.

Colloidal Silver has been used internally, externally and topically.
